

8 way OPM power meter board

16 way OPM power meter board

## OPM Card

### Product Description

OPM card consists of a multi-channel photodetector (8 channels and 16 channels) for real-time monitoring of line optical power value.

### Product Features

- Wide test range
- High accuracy
- Two types of cards are available

### Product Specification

Parameter	Index
Wavelength	1200nm~1650nm
Input optical power	-70dBm~0dBm
Resolution	0.01dB
Return loss	≥45dB
Channels	8/16
Card width	1 standard slot (8 channels) 2 standard slots (16 channels)
Interface type	LC/UPC
Maximum power consumption	5W
