

PMS-V

PMSII

PMS Optical Power Meter

Product Description

PMS optical power meter is an accurate and durable handheld meter designed for the installation, operation and maintenance of optical fiber network. It is a compact device with backlight switch and auto power on-off ability.

Product Features

- Multi-wavelength measurement
- Large dynamic range detection
- Low power design
- Intelligent backlight control

Product Specification

Parameter	指标			
	PMS-V-A	PMS-V-B	PMSII-A	PMSII-B
Detection range	-70~+6dBm	-50~+26 dBm	-65~+10 dBm	-45~+33
Wavelength range	800~1700nm			
Connector type	FC, SC, ST	FC, SC, ST	FC	FC
Test wavelength	850/1300/1310/1490/1550/1625	850/980/1310/1480/1550/1625	10	850/980/1310/1480/1550/1625
Wavelength recognition mode	Automatic		Manual	Manual
Display resolution	0.01dB			
Power supply	3 × 1.5V AA battery 5V power adapter		2 × 1.5V AA battery 6V power adapter	
Battery Operating Time	200hr		60hr
